## CAMPING TRICKS & TIPS

Strap a headlamp to a plastic gallon jug of water to create a small lantern

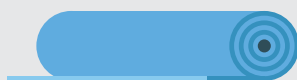

Add bundles of sage to a campfire to help keep mosquitoes away

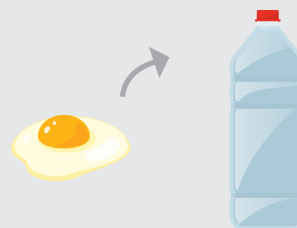

Freeze gallon jugs of water and place them in your cooler to keep it cold

On hot days, cover your tent with an emergency blanket to reflect away the sun light

Use foam tile pads to make the floor of your tent more comfortable

Put raw eggs into a plastic bottle, so you do not have to worry about transporting fragile eggs
